**TESSILMARE**

binox

beyond imagination

The first stainless steel fender profile **without** screws.

binox Pat. Pend.

The first stainless steel fender profile **without** screws.

unlimited **innovation**

The PVC base can be fitted onto the boat and the 3 mt. S/S bar can be pressure fitted.

high **resistance**

Light like a PVC fender profile, strong like a S/S fender profile. And no more rust.

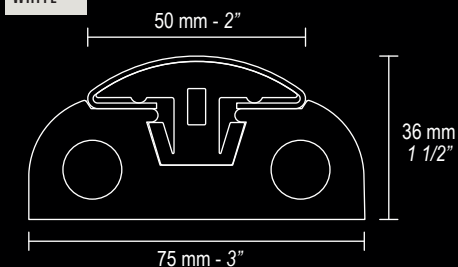

very quick **installation**

Binox can be installed like our PVC fender profiles: cold fitted and in a very short time.

unmatched **result**

S/S bars give a result never seen before. We suggest the use of our S/S joint caps and end caps for a better technical and aesthetic effect.

available base colors

code and accessories
