Toilets & Sanitation Systems

8800 DESIGNER SERIES

All–Ceramic MasterFlush™ Toilets and Bidets

SeaLand 8800 series electric macerating MasterFlush toilets and bidets offer home-like appearance and performance – with the convenience of electronic touchpad operation. All models feature a sparkling vitreous china finish and full-size residential-style seat. Available in white and bone colors, 12 and 24 VDC.

MODEL 8819 TOILET
- Ultimate comfort with standard-height, full-size seat
- Home-like water trap eliminates odors

MODEL 8811 BIDET
- Low-profile bidet only
- Complements model 8812 toilet

MODEL 8816 TOILET/BIDET
- Standard height macerator toilet
- Temperature-controlled bidet wash

MODEL 8818 TOILET
- Contemporary styling with standard seat height
- Home-like water trap eliminates odors
- Sloped back fits against hull

### MODEL 8812 TOILET
- Low-profile style, small footprint for raised platforms
- Complements model 8811 bidet

Model	Description
8811	Low-profile macerator discharge bidet
8812	Low-profile, macerator discharge toilet
8816	Standard height, sloped back, macerator discharge toilet/bidet combination
8818	Standard height, sloped back, macerator discharge toilet
8819	Standard height, macerator discharge toilet
385880057	Macerator toilet Power/Tank Full panel kit, 12 VDC
385880058	Macerator toilet Power/Tank Full panel kit, 24 VDC

TOILET REQUIREMENTS

**Electrical:** Wiring – 12 ga. stranded copper (up to 20 ft./6.1 m from breaker).
Circuit – 12 VDC - 15-amp breaker; 24 VDC - 10-amp breaker (or in-line fuse).

Water Supply: Line/Fitting –.5-in. (13 mm) ID/.5-in. MPT. Flow – 2.5 gpm (9.5 lpm) at toilet.

Discharge: 1.5-in. (38 mm) ID PVC pipe or sanitation hose connected to holding tank system.
Max. horizontal run – 98 ft. (30 m). Max. vertical run – 9.8 ft. (3.8 m).

700 SERIES

Convenient Toilet/Holding Tank Combination

Get a complete freshwater toilet system in one self-contained package. Using on-board water supply, this toilet system produces no foul odors associated with seawater systems. It's also a great replacement for recirculating toilets. Just connect water supply, discharge line and vent line – it's ready to go.

MODEL 711-M28

- 1 pint (.4 l) per flush
- 9.5-gallon (36 l) tank capacity
- Wooden seat for home-like comfort
- Integral vacuum breaker protects fresh water supply
- Foot pedal adds water to bowl and flushes toilet
- No electricity required
- High-strength polyethylene holding tank
- White and bone colors

711-M28

Model	Description
711-M28	Self-contained toilet/holding tank combination. Standard height, foot pedal flush

19 1/4-inch [489mm]

20 5/8-inch [524mm]

20 1/8-inch [511mm]

18 7/8-inch [479mm]
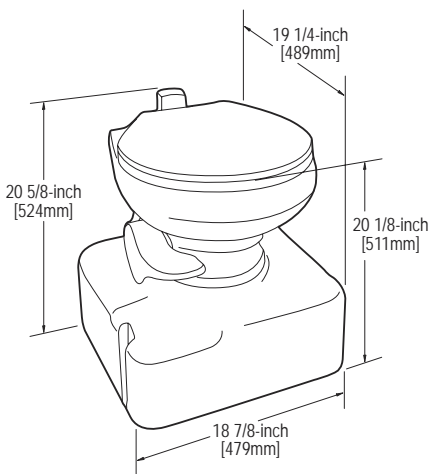

SYSTEM REQUIREMENTS

Water Supply: Line/Fitting – .5-in. (13 mm) ID/.5-in. MPT.
Flow – 2 gpm (7.6 lpm) at toilet.

Discharge: PVC fitting connects to 1.5-in. (38 mm) ID discharge plumbing.

Vent: 5/8-in. (16 mm) ID hose fitting.

500 AND 200 SERIES

Home-Comfort Toilets

Elongated seat and deep, household-size ceramic bowl offer premium user comfort for both gravity-discharge toilet models. Anti-splash rim keeps water in.
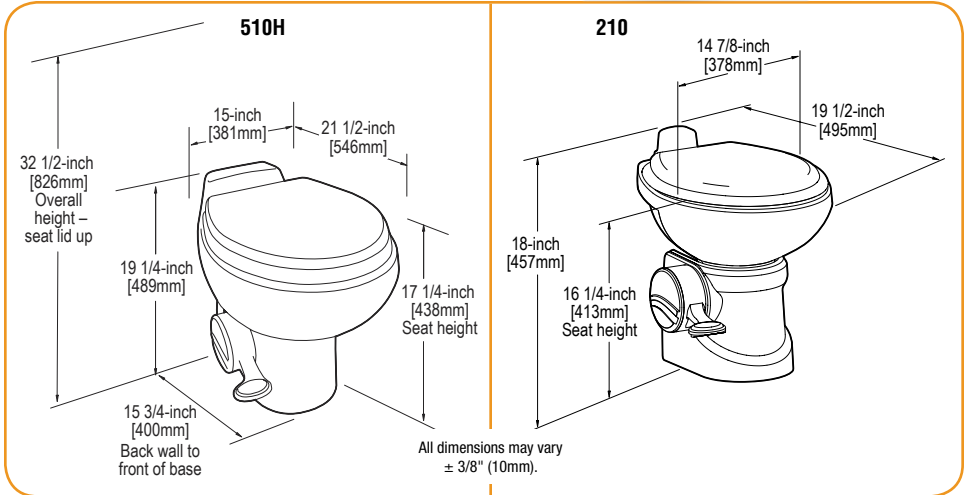

MODEL 510H

- 1 pint (.4 l) per flush
- Wooden seat
- Hand sprayer option available
- White and bone colors

MODEL 210

- 1 pint (.4 l) per flush
- Plastic seat
- Hand sprayer option available
- White and bone colors

210

510H AND 210 TOILET REQUIREMENTS

Water Supply: Line/Fitting – .5-in. (13 mm) ID/.5-in. MPT. Flow – 2 gpm (7.6 lpm) at toilet.

Discharge: 3-in. (76 mm) ID ABS or PVC pipe connected to holding tank.

Portable Toilets

Powerful flushing at the touch of a button sets the new 970 portable toilet series apart from the rest. Requires no manual pumping or batteries, yet delivers a robust bowl-clearing flush every time. An easy-view level indicator lets you know when to empty the holding tank.

- 2.6-gallon (9.8 l) or 5.0-gallon (18.9 l) models
- High-strength ABS construction withstands demanding marine environment; smooth finish cleans easily for lasting beauty
- Full-size seat provides user comfort; latching lid stays secure while underway

972/974

- Prismatic level indicator shows remaining capacity in holding tank
- Splash-free tank design prevents splashing during flushes and discharges
- MSD models can be installed for direct overboard, dockside pump-out, or remote tank discharge
- Tan and gray colors

1. Pressurize water tank (every 4-5 flushes*).
2. Pull handle to flush into lower tank.
3. Push button to rinse bowl (or add water before use).
4. Extra-long spout and tank vent make emptying easy.

* Depending on amount of water used per flush.

975/976

TOILET SPECIFICATIONS

Water Supply: Self-contained freshwater 2.3-gallon (8.7 l) upper tank.

Discharge: Standard models – discharge spout in bottom tank.
MSD models – PVC fitting connects to 1.5-in. (38 mm) ID discharge plumbing.

Vent: 5/8-in. (16 mm) ID hose fitting (MSD models only).

Portable Toilets

Simple, self-contained toilet system offers the convenience of home anywhere you travel.

- 2.5-gallon (9.5 l) or 5.0-gallon (18.9 l) models offer enough capacity for 30-50 uses
- High-density polyethylene construction withstands demanding marine environment
- Scratch-resistant matte finish is easy to keep clean and looking good for years
- Comfortable and secure, the adult-size seat and firm-locking side latches assure user satisfaction
- MSD models can be installed for direct overboard, dockside pump-out, or remote tank discharge
- Parchment and platinum colors

Water Supply: Self-contained freshwater 2.6-gallon (9.8 l) upper tank.

Discharge: Standard models – discharge spout in bottom tank.
MSD models – PVC fitting connects to 1.5-in. (38 mm) ID discharge plumbing.

Vent: 5/8-in. (16 mm) ID hose fitting (MSD models only).

"Power/Tank Full" Panel

- Integrates with MasterFlush™ system control module and any tank level monitoring system
- Indicates when MasterFlush system electrical power is on
- When "Full" indicator lights, electrical power to toilet is shut down to prevent overfilling of holding tank
- 2.5-in. (64 mm) x 1.625-in. (41 mm) panel size

Item	Description
313750012	Power/Tank Full panel, 12 VDC
313750024	Power/Tank Full panel, 24 VDC

"Do Not Flush" Panel

- Glowing red light warns against flushing due to full holding tank
- Connects to any tank level monitoring system
- 2.5-in. (64 mm) x 1.5-in. (38 mm) panel size

Item	Description
313318714	Do Not Flush panel, 12 VDC

TankWatch® 1 Alert System

- Highly reliable float switch activates red warning light when tank is full
- No electrical components contact water
- Easy to install on rigid tanks
- Operates on 12 VDC or 24 VDC
- 2.5-in. (64 mm) x 1.625-in. (41 mm) panel size

Item	Description
360000312	TankWatch 1 alert system

TankWatch 4 Level Monitor System

- The most flexible level indicator available
- Continuously monitors holding tank level. Micro float switches indicate empty, low, mid and full. International symbology for universal use
- Always one – and only one – light on. Eliminates confusion
- No false readings. No electrical components come in contact with waste or water. Operates on 12- or 24-volt DC
- Easy to install. Use on any size fresh, gray or black water tank. Available with either 22-inch or 45-inch adjustable probes
- Optional relay shuts down toilet when waste tank is full or shuts down water pump when freshwater tank is empty

Item	Description
360600113	Probe cap with vent, indicator panel, 22-in. probes
360600114	Probe cap, indicator panel, 22-in. probes
360600115	Probe cap with vent, indicator panel, 45-in. probes
360600116	Probe cap, indicator panel, 45-in. probes

TankWatch® 6 and 9 Level Monitor Panels

- TankWatch 6 panel connects to standard freshwater and waste-water tank level indicators

- TankWatch 9 panel connects to standard freshwater, graywater and wastewater tank level indicators

- Both panels indicate Empty, Mid and Full tank levels

- Either panel must be used with TankWatch level indicators (Purchase TankWatch probe caps separately.)

- 4.75-in. (121 mm) x 2.875-in. (73 mm) panel size

Item	Description
313306012	TankWatch 6 six-light indicator panel
313309112	TankWatch 9 six-light indicator panel
313000345	TankWatch three-level probe cap with vent, 45-in. probes
313000346	TankWatch three-level probe cap, 45-in. probes
313000350	TankWatch three-level probe cap with vent, 22-in. probes
313000355	TankWatch three-level probe cap, 22-in. probes

TankMaster™ 4 Automatic Discharge Pump Control

- Diverts sewage directly overboard in unrestricted waters when holding tank reaches mid level and keyed control switch is set to "automatic" position

- Prevents accidental overboard discharge in restricted waters when control switch is turned to "off" position

- Simplifies plumbing by eliminating wye valves, seacocks and vented loops. Eliminates stagnating sewage trapped in hoses

- Includes control panel with keyed switch, discharge pump light and optional seacock light. For use with discharge pump, TankWatch 4 level monitor system and optional seacock interlock system

Item	Description	Item	Description
313814012	TankMaster 4, 12 VDC	313804012	TankMaster 4 with seacock light, 12 VDC
313814024	TankMaster 4, 24 VDC	313804024	TankMaster 4 with seacock light, 24 VD

TankManager™ Discharge Pump Controller and Automatic Level Indicator

- Complete sanitation management system for offshore boats

- Monitors holding tank level

- Allows manual overboard discharge – pump turns off automatically

- Includes control panel and control module

- For use with SeaLand discharge pump and TankWatch® 4 system (sold separately)

- Optional model available for use with SeaLand seacock interlock relay

- 12 VDC and 24 VDC systems

Item	Description
313131012	TankManager, manual start, single head, 12 VDC
313131024	TankManager, manual start, single head, 24 VDC
313131112	TankManager, manual start, seacock light, single head, 12 VDC
313131124	TankManager, manual start, seacock light, single head, 24 VDC
313131212	TankManager, manual start, multiple head, 12 VDC
313131224	TankManager, manual start, multiple head, 24 VDC
313131312	TankManager, manual start, seacock light, multiple head, 12 VDC
313131324	TankManager, manual start, seacock light, multiple head, 24 VDC

SEALAND HTS SERIES

HTS–T and –Basic Models

A high-quality, odor-free holding tank system can be installed in virtually any boat with this wide selection of SeaLand holding tank systems. Top-mounted discharge fittings prevent potential leaks, and all models feature many other performance advantages.

HOLDING TANK ACCESSORIES

Universal Level Indicator Kit

- Replaces individual TankWatch® probes
- Allows customized level indication for new installations
- Two probe lengths adjust to different holding tank sizes or desired indication levels
- Integrates with any TankWatch system

Item	Description
385311253	Universal level indicator kit, 12-inch (305 mm)
385311254	Universal level indicator kit, 24-inch (610 mm)

Universal Holding Tank Flange Kit

- Allows installation of TankWatch probe cap into existing holding tanks
- Includes 3-in. (76 mm) inspection port, gasket and stainless steel hardware

Item	Description
307230272	Universal flange kit

Universal Holding Tank Clean-out Kit

- Provides easy access to holding tank interior
- Easy to install on any rigid tank
- Includes 3-in. (76 mm) inspection port and cap, O-ring, gasket and stainless steel hardware

Item	Description
307348685	Holding tank clean-out kit

TankSaver® Relief Valve

- Protects holding tank from excessive suction by dockside pumps
- Easy to install – no sealant or spinweld required
- Fits tanks up to 30 in. (762 mm) deep
- Easy to install

Item	Description
313255247	TankSaver relief valve

Holding Tank Diptube Kit

- Removes waste through top of tank – eliminates stagnant waste from sitting in discharge line
- Prevents clogging and reduces tank residual
- Fits tanks up to 30 in. (762 mm) deep
- Easy to install

Item	Description
307348685	Holding tank clean-out kit

T–Series Discharge Pump

- Runs dry without harm

- Patented bellows pump can run dry without damage

- Draws only 6 amps at 12-volt DC

- Self-priming up to 10 feet (3.3 meters) of water

- Handles up to 300 gallons (1136 liters) per hour

6 3/4-inch [171mm]

7 3/4-inch [197mm]

13 3/4-inch [349mm]

Item	Description
360301200	T series discharge pump, 12 VDC
360302400	T series discharge pump, 24 VDC

NozAll™ Pumpout Adapter

- Provides airtight seal between rubber-nozzle type and cam-operated type pumpout station nozzles and most boat deck discharge fittings

- Cleaner pumpouts – eliminates need for messy water source to create sufficient vacuum

- Easy to install – three thread sizes accommodate most deck fittings

Item	Description
310343502	11.5 tpi (4.5 tpcm), 1-7/8 in. (48 mm) OD
310343503	11.5 tpi (4.5 tpcm), 1-5/8 in. (41 mm) OD
310343504	16 tpi (6.3 tpcm), 1-5/8 in. (41 mm) OD

SaniGard™ Holding Tank Vent Filter

- Stops odors that escape from the holding tank vent

- Contains odor-removing filter materials to keep boat smelling clean and pleasant

- Each cartridge lasts for an entire season and is easily replaced for a fresh start

- Vent filter includes mounting brackets and hose adapters

Item	Description
309310002	5/8 in. (16 mm) vent filter, bracket
309310007	3/4 in. (19 mm) vent filter, bracket
309310005	1 in. (25 mm) vent filter, bracket
309310003	1-1/2 in. (38 mm) vent filter, bracket

SeaLand OdorSafe® Plus Sanitation Hose

• Best odor barrier of any marine hose available

• Five-year limited warranty

• Up to 500% greater resistance to odor permeation than the so-called "no-odor" marine hoses!

• Available in 1-1/2-inch (38 mm) for waste line. Sold in 50 ft. (15.2 m) coils

Item	Description
306342871	1-1/2 in. (38 mm) ID x 50 ft. (15.2 m) OdorSafe Plus hose

SeaLand MaxFlex Sanitation Hose

• Very flexible, high-quality hose for multiple sanitation system uses.
